The Aebi Combicut product range is true to the motto: „one idea, many possibilities“ and combines easy handling, high quality and, thanks to its extensive attachments, extreme versatility. Whether mowing, haymaking, mulching, sowing, milling, sweeping, blowing leaves or clearing snow - the single axle Combicut is the ideal all year round partner. The range is designed to the same technical concept, offering an infinitely variable traction drive with fingertip control and subtly responsive active steering
